# DINESHWARAN D

**Python Full Stack Developer**

Tirupur · dineshwarand2004@gmail.com · +91 87781 77125 · GitHub · LinkedIn · Portfolio

## PROFILE SUMMARY

Highly motivated BCA graduate with strong knowledge in full-stack development and software testing. Experienced in building scalable web applications using Python, Django, and ReactJS, along with hands-on automation testing using Selenium. Strong understanding of REST APIs, database design, and responsive UI development. Focused on writing clean, efficient code and solving real-world problems through technology.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | Python (OOP, File Handling, Exception Handling), JavaScript (ES6+, DOM, Async/Await), SQL (Joins, Queries) |
| **Frontend** | HTML5 (Semantic), CSS3 (Flexbox, Grid, Responsive Design), Bootstrap, ReactJS (Hooks, State Management) |
| **Backend** | Django (MVC, ORM), Django REST Framework (API Development) |
| **Database** | MySQL (CRUD, Relationships, Normalization) |
| **Testing** | Selenium WebDriver (Automation Scripts, Test Case Design, XPath) |
| **Tools** | Git, GitHub, VS Code, Postman, Canva, AI Tools |

## PROJECTS

**Sky Cast — Weather Forecast Application** — ReactJS · Django · REST API

- Developed a full-stack real-time weather application supporting global city search functionality
- Integrated OpenWeatherMap API to display temperature, humidity, and weather conditions dynamically
- Implemented asynchronous API calls using React Hooks for improved performance
- Built Django backend to handle API requests and ensure efficient data processing
- Designed responsive UI ensuring seamless user experience across devices

**Catering Management System** — PHP · MySQL

- Designed and developed an online catering service management system for handling bookings and orders
- Implemented secure backend logic using prepared statements to prevent SQL injection
- Created structured relational database for efficient data storage and retrieval
- Developed admin features to manage orders, customers, and menu items

**Car Connect Platform** — ReactJS

- Built a responsive vehicle comparison platform with dynamic filtering features
- Implemented user-friendly UI with modern design principles
- Optimized component rendering for better performance

**JavaScript Mini Applications** — JavaScript

- Developed Digital Clock, Countdown Timer, and To-Do List applications
- Applied DOM manipulation and event-driven programming
- Used localStorage for persistent user data

## EDUCATION

**Bachelor of Computer Applications (BCA)** — 2022–2025

Chikkanna Arts College, Tirupur

Focused on programming fundamentals, database management, and web development concepts

## CERTIFICATIONS

- Python Full Stack Development — Login360
- Software Testing with Generative AI
- AI Tools — Jio Certification
- Canva Graphic Design

## LANGUAGES

Tamil — Native Proficiency
English — Professional Working Proficiency
Kannada — Basic Communication
